Trails are maintained for non-motorized uses. Hikers and runners are welcome on all trails. Multi-use trails and Multi-use roads can also accommodate horses and bikers.

Trails are maintained courtesy of the Upper Valley Stewardship Center, Oliverian School, and Mount Prospect Academy. Donations are accepted and help cover the cost of maintenance.

Please note that a number of additional logging and access trails also traverse the property and often intersect with the recreation trail system. All public recreation trails are marked with colored coded arrows that match the trail color on the map.

Use trails at your own risk.

The trail marked with this symbol is under construction. We anticipate opening this trail in 2012.
